

HARSH PRIYESH

DESIGN LEAD | CLOUD ENGINEER

PROFILE

I'm an electronics graduate from **NIT Srinagar** with experience in the Google Cloud Platform. I'm interested in **Programing, Cloud, web development and leadership roles**.

Apart from coding, I enjoy painting and playing music. I'm always eager to learn and improve personally and professionally, thrive in creative environments, and love applying problem-solving skills while learning new technologies.

WORK EXPERIENCE (1.9 years)

@TATA CONSULTANCY SERVICES

2021 - PRESENT | NEW DELHI, INDIA

- ✚ Worked on the **EDH data migration** project, which involved migrating data from an on-premises system to the Google Cloud Platform (GCP).
 - Cloud migration could save **£750m in annual** IT costs, significantly reducing the client's system maintenance expenses, accounting for **up to 80%** of their IT budget.
 - And use the Google Cloud to **leverage cloud technology** to drive innovation, enhance agility, security and optimise their business.

DESIGN LEAD

- ✚ **Collaborating with cross-functional teams**, including product managers, engineers, and stakeholders, to align design goals, resolve conflicts, and ensure a smooth design integration with development processes.
- ✚ Worked with **2 teams** of an average of **10 members** each.
- ✚ Receive **handover** from the D&D team and **analyse** the provided information.
- ✚ **Share relevant information** with team members and address their queries and concerns.

GOOGLE CLOUD DATA ENGINEER

- ✚ Contributed to the project in various stages, including discovery to design, **BIP Ingestion**, and **History Data Migration**, but mainly focused on managing the **DataCatalog**.
- ✚ **Dveloped Automation Script** to create Catalog Json using table schema to ease the data catalog work.
- ✚ **DataCatalog management**:
 - Receive handover from the D&D team, analyse the provided information, share relevant details with team members, and address their queries and concerns.
 - **Plan data catalog upcoming tasks** for the next sprint.
 - Delegate tasks among the team members and **review** their progress.
 - Ensure **successful deployment** into production.
- ✚ Successfully deployed over **70+ data sources** and **use cases** into production by managing the DataCatalog and deploying **2+ data sources** through BIP Ingestion.
- ✚ **Google certified** as an **Associate Cloud Engineer**, demonstrating my proficiency in managing and deploying applications on GCP.
- ✚ Utilized **Agile methodology** to facilitate efficient project management and timely achievement of project milestones, consistently delivering an average of **9 points per sprint**.
- ✚ Received the **Learner Achievements Award**.
